

# DETECTAMET SK117

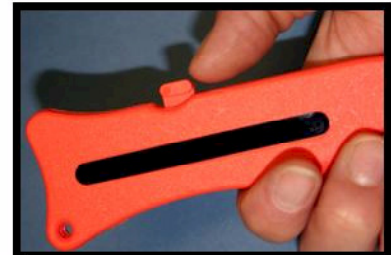

NEW

**DETECTAMET**  
E-COMPONENTS & CHAINS

The SK117 is the latest addition to our SK Safety Knife range. Moulded in Metal Detectable Plastic with stainless steel blades. New features include: Patented 'opposed exits' at the back of the blade and a spring loaded retractable hook blade.

To expose the hook blade, place your thumb on the lever at the side of the knife

Push the lever until it clicks into position and the hook blade is exposed

Once exposed, use the hook blade to cut the material needed

After use the hook blade will automatically retract back into the knife

STRAPPING

PAPER

CABLE TIES

TAPE & BOXES

Also suitable for cutting a variety of other packaging materials
